Loan Approved

How does the fund work?

This fund helps your lender say yes by providing the bank with credit support. You'll work directly with your bank throughout the loan process.

Is the program right for me?

If you're an enrolled Choctaw-owned business in the United States and fewer than 750 employees, you may qualify.

How can it help my business?

You can use this fund to get a loan for working capital, construction, real estate, or equipment—and get support to help your business grow.

How do I get started?

Talk to your local bank and apply for a loan like you normally would. If your lender needs help approving the loan, they can contact the fund for support.
